

Detroit Historical Society Glancy Trains Volunteers

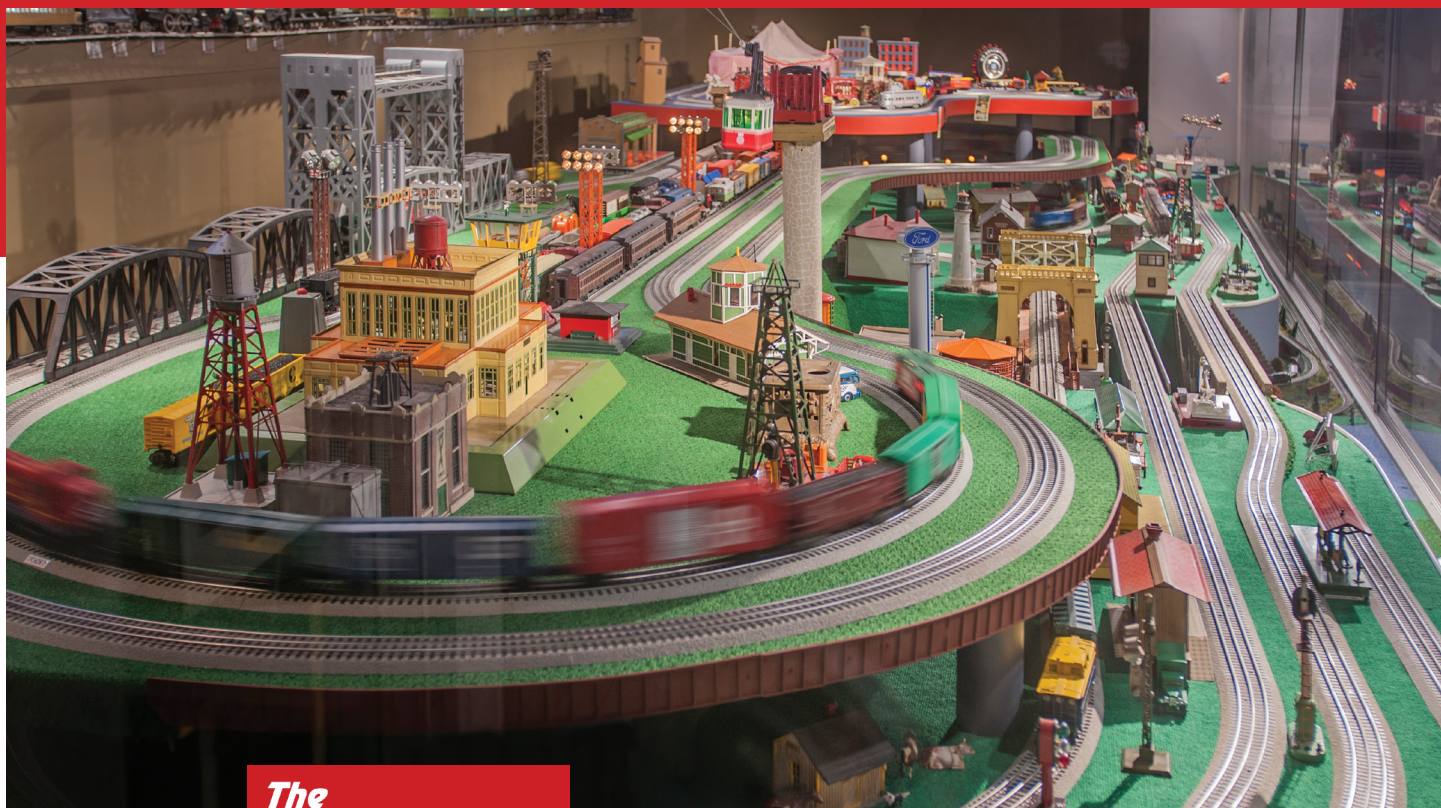

The Glancy Train volunteers manage our model train display here at the Detroit Historical Museum. This layout provides visitors an "engineer eye's view" thanks to an engine equipped with a camera that sends a signal to a TV monitor. Visitors can also operate the people mover, a carousel, passenger stations, a windmill, a circus train and lighting that dims to create nighttime scenes just by a push of a button.

The Detroit Historical Society's Glancy Trains volunteers are looking for model train enthusiasts who are also interested in helping the Detroit Historical Society keep our layout running for families to enjoy.

If you would like to join our volunteers, contact:

Arletha Walker, Volunteer Coordinator
